Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Understanding human dynamics is an essential aspect of planning for success across the full spectrum of military and national security operations. While the adage that warfare is political conflict by other means is widely recognized, combatants who underestimate the impact of the human element in military operations do so at their risk. During the Second World War and the reconstruction that followed, as well as during the Cold War, understanding human dynamics was considered essential. Although, the U.S. military belatedly increased its human dynamics awareness within the current Iraq and Afghanistan theaters, recent progress has been achieved because of its importance in strategic, operational, and tactical decision-making. The U.S. military has also made recent progress in training and sensitizing deployed U.S. forces to the importance of understanding human dynamics in dealing with individuals, groups, and societies. There have been numerous, though mostly uncoordinated, efforts within DoD to manage relevant databases and provide associated tools and cultural advisors. To a large extent, these efforts recapitulate lessons learned and since forgotten from prior engagements-capabilities that were permitted to lapse and were no longer organic to DoD. Substantial improvements by DoD are needed in understanding human dynamics. In particular, DoD must take a longer-term view and build upon increased capability achieved in Iraq and Afghanistan. It must institutionalize the best of current programs and processes so that this capability is also available across the full spectrum of military operations, including increased emphasis on activities, referred to as Phase 0, that seek to mitigate the likelihood of armed conflict. To be effective in the long term, DoD must develop more coherence in its efforts to enhance human dynamics awareness. Most importantly, capability must be expanded beyond the...
