Excerpt from Report on the Drainage and Sewerage of the City of Montreal, Shewing the Location, and Estimated Cost of the System of Main Outlet and Intercepting Sewers Proposed to Be Constructed for the Thorough and Effectual Drainage of the City At the Quarterly Meeting of Council, held at the City Hall on 9th of September, 1856, a Resolution was passed to the effect that the City Surveyor be instructed to make such examinations and surveys of the City as would enable him to project and lay down such a system of main sewers as would thoroughly and effectually drain the City, and to submit plans, sections and estimates of the cost of said main sewers so required. These instructions - an outline of which is given above - I received in the beginning of October, the delay being occasioned on account of there being no funds appropriated for the purposes of the survey. I commenced the survey and examinations on the 3rd of October, 1856, and since then have devoted all the time to its completion which I could spare from other more pressing duties. This survey, which you intrusted me with, is now completed, and I have the honor to submit to you the following Report on the system of main sewers which I propose to lay down. This Report is accompanied with a detailed estimate of the cost of all the main sewers proposed to be constructed, and taken out in separate items as the different lengths of sewer and the work on it, is heavy or light; also detailed plans of the side entrances, cross drains; the outlet at Ruisseau Migeon; plans and sections of the several...
