The Comet s Tale is about Earth technology, ancient prophecy, spiritual initiation and secret ceremonies. A cosmic story of self discovery and art, this intrepid voyage of accidental awakening and out of body experience comes to light beneath the rays of the Great Comet of 1996. Riding the millennial fever, an art student voyages to the spiritual heart of the cosmos- the young traveler on a planetary quest at the end of Time. Old soul and young fool, he can t deny the pull of tropical Java. A near-death experience on a Indonesian volcano draws him back to the New Mexico desert, mineral springs, caves and community, to receive visions all enchanted by the natural elements and substance of a wild landscape. Heading East to West, space begins and new worlds are born; reality shifts shape, as multi dimensional secrets are revealed in this stranger than fiction meta-memoir. A rare voice and uncommon vision, the fiery traveler s undaunted questing match the light and energy of the cosmic entity he grasps and finally rides through dust, vapor and vision.
