

The Occult Mind: Magic in Theory and Practice (Paperback)

Filesize: 1.59 MB

Reviews

This is actually the very best publication i have read through till now. It is definitely simplistic but unexpected situations in the 50 % in the pdf. You can expect to like just how the article writer compose this pdf.
(Ms. Elinore Wintheiser)

THE OCCULT MIND: MAGIC IN THEORY AND PRACTICE (PAPERBACK)

Cornell University Press, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book. Given the historical orientation of philosophy, is it unreasonable to suggest a wider cast of the net into the deep waters of magic? By encountering magical thought as theory, we come to a new understanding of a thought that looks back at us from a funhouse mirror. --from The Occult Mind Divination, like many critical modes, involves reading signs, and magic, more generally, can be seen as a kind of criticism that takes the universe--seen and unseen, known and unknowable--as its text. In The Occult Mind, Christopher I. Leirich explores the history of magic in Western thought, suggesting a bold new understanding of the claims made about the power of various belief systems. In closely interlinked essays on such disparate topics as ley lines, the Tarot, the Corpus Hermeticum, writing and ritual in magical practice, and early attempts to decipher Egyptian hieroglyphics, Leirich treats magic and its parts as an intellectual object that requires interpretive zeal on the part of readers/observers. Drawing illuminating parallels between the practice of magic and more recent interpretive systems--structuralism, deconstruction, semiotics--Leirich deftly suggests that the specter of magic haunts all such attempts to grasp the character of knowledge. Offering a radical new approach to the nature and value of occult thought, Leirich's brilliantly conceived and executed book posits magic as a mode of theory that is intrinsically subversive of normative conceptions of reason and truth. In elucidating the deep parallels between occult thought and academic discourse, Leirich demonstrates that sixteenth-century occult philosophy often touched on issues that have become central to philosophical discourse only in the past fifty years.
