Houston, We Have A Problem. (Paperback)

By Michael Polley

Lulu.com, United Kingdom, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.History is littered with the success stories and achievements of planet Earth s most evolutionary successful biped. Mankind has invented electricity, the wheel, created entire Empires, cured polio and smallpox, built pyramids, conceived of democracy, put a man on the moon, and probably most importantly of all created beer, pizza, the push-up bra, and soccer. But for every amazing achievement there are hundreds of other examples where mankind has also fallen just a little short of such greatness, where attempts to conquer, invent, build, or overcome, have ended up more in red-faced embarrassment than glorious fist-pump; Napoleon s invasion of Russia, the Spanish Armada, the sinking of the Titanic,.So here then is a collection of such knuckle-headed events, aimed at giving you a flavour of just what history-changing incompetence mankind is capable of when left to his own devices.
