Brand New Book ***** Print on Demand *****.Excerpt from Administrative and Industrial Organization: Instruction Paper As in every other profession, some incompetent men are found posing as business engineers, but an increasing number of trained men are entering the field. It is the work of these men that is placing the profession on a high plane. The successful business engineer must have the ability to quickly grasp the plan of operation of any business with which his work may bring him in contact; he must be able to analyze conditions and to determine the factors which make for the success or failure of a business. His work is to organize and systematize every step of the work in every department. 3. The Preliminary Investigation. The first step in the organization or systematizing of a business is to determine its natural divisions. What is the nature of the business, and what are its distinguishing characteristics? Be it a manufacturing, jobbing, wholesale, retail, or professional concern, there is some one head on whom rests the final responsibility for the success or failure of the business. He...
