Reviews

Simply no words and phrases to clarify. It really is full of knowledge and wisdom You wont feel monotony at at any moment of the time (that's what catalogs are for relating to when you question me).

(Paolo Spinka)

RECREATIONAL SPORT: PROGRAM DESIGN, DELIVERY, AND MANAGEMENT

Human Kinetics. Hardcover. Condition: New. There are more opportunities than ever for employment in recreational sport, which means the need to prepare students with a solid foundation of the design, delivery, and management of recreational sport has never been more critical. Recreational Sport is designed precisely with that need in mind. This text provides a contemporary perspective of recreational sport management, offering a comprehensive picture of recreational sport management for people in or entering all sectors of recreation and leisure, including public, nonprofit, private, and commercial. We saw a need for broad-based recreational sport programming that reflects the myriad of recreational sport activities and opportunities that are out there, says lead author Robert Barcelona. To meet those increased needs and interests, people need to have an array of programming and management skills in recreational sport. Barcelona and his coauthors help readers gain those skills in part by simplifying the complicated process of designing and delivering programs in various settings in recreation and leisure services. They present a macrocosm view of recreational sport in communities a view that reflects the most current, application-based research in the field. Their text places recreational sport squarely in the middle of the recreation and leisure curriculum and is supported by the recreational sport core competencies as developed by Barcelona himself. Those competencies are based on what recreational sport managers need to know and be able to do to grow and succeed in the profession, and they connect with the NIRSA recreational sport competencies developed in 2013. In addition, Recreational Sport offers the following: Coverage for all age groups and sectors in a range of settings and contexts for recreational sport International perspectives to offer students great insights into career opportunities The latest theory, research, and real-world approaches to help both students and professionals who program sports...
