THE TECH ADVISOR: A GUIDE TO BETTER SOFTWARE SELECTION AND IMPLEMENTATION DECISIONS FOR BUSINESS MANAGERS (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This book is for business managers and leaders facing big decisions about software. Read this before you call the salespeople, vendors, and consulting companies. Sometimes an organization wants software for more than just the common tasks like internet browsing, documents, and email - software that will enable it to step up to the next level of business activity, efficiency, and productivity: to automate and expedite a key process, or create a new process; to facilitate collaboration; to connect data with data, people with data, or people with services. Here you don t just install a conventional program and go through some tutorials. Everything changes. People in diverse roles doing a variety of tasks will become part of a new system. Staff, affiliates, and customers will all be affected, directly or indirectly - and will be interconnected in new and unfamiliar ways. All activities should coordinate and flow easily and in a timely manner. The solution should augment what works in the pre-existing process as well as build new, more efficient pathways, enhanced with powerful tools. To succeed, enterprise-level software initiatives like this require careful planning and considerable effort. The potential rewards are huge - major cost savings, a big boost in revenue, and greater market share - but the risks are significant. Small companies may also face these issues, especially if they have a unique process that is their competitive edge. Software vendors will not necessarily tell you everything you need to know, nor will they do your due diligence for you when you plan, select, and implement the technology. If you do not have sufficient expertise in-house you can make serious mistakes. A number of issues might not...
