

Growing Houseplants for the Beginner Enthusiast (Paperback)

By Cyril G Bursell

Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.At one time or another most everyone had a plant or two in their house or apartment. If you have a bit of a green thumb, your plants grew and offered you hours of enjoyment. Heck, perhaps you even had a name for each plant. Yes, you are indeed the talented ones who can grow just about anything anywhere. Then there is the beginner houseplant owner who with the best of intention looked on in dismay as they watched their plants slowly wither away eventually becoming nothing more than a dried stick. It is for you guys and gals who have little or no knowledge on how to keep a houseplant alive I have written this book. Our journey will take you through what kind of plants are best for your home and what you need to know to keep them healthy and vibrant. You will also learn which plants are toxic to children and pets as well as which plants are safe for your home. As a beginner houseplant owner you might feel a little overwhelmed with so much information. Therefore, I...

Reviews

It is just one of the best publication. This can be for anyone who statte that there was not a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Tara Jerde**

The ebook is easy in read through preferable to understand. It is actually writter in straightforward words and never hard to understand. I realized this publication from my dad and i encouraged this ebook to understand.
