Brand New Book ***** Print on Demand *****.Peer owners - Your net (V.0) This book is a manual describing a new idea for reinforcing the individuals in their groups, by the ComComism - ComCom stands for COMmon COMpany - a company for realizing common objectives. More: ComComism is a peaceful way to change what must be changed toward your side - use it for having more individual freedom and power in your group; The assets of any democratic organization must be owned equally by all its members! Why? For increasing the power of each individual, for protecting minorities and for protecting against takeover by any single entity and as such it also provides a litmus paper as for the end goal inattention of each individual entering an association! As the members in their unit are shareholder having equal number of shares in it - their membership becomes tradable, making their representatives better satisfying them, or suffering the fall of the units value. The goal of this concept is a stock market for shareholders having equal number of shares and until then this concept is a new one. Examples: In different groups, we the people, can be the peer owners of the (isp of the) Internet, of some bank systems and/or some means of production of renewable energy, while breaking (e.g. by govcomcomizing) the infinite cycle of bailouts and privatization! I cut myself off from the mass democracy, in which i am lost, into groups in which each member is also a peer owner of its assets! The distribution and licensing of this manual is designed for others making it better while earning from doing so - //fwd4.me/07Lk ComCom, standing for Common Company, What is that?...
