There are only two people in the world that I truly hate. One of them is unpacking his toothbrush in my bathroom, and the other one is texting me to find out what color my panties are. Pathetic, I know. I'm a romance novelist caught between the man I used to love, and the one who wants to destroy my career. Well - maybe destroy is too strong of a word. But there's still no excuse for why I started a secret cyber-affair with a snarky reviewer who likes to rip my books apart. Yes, he's mysterious, and yes, he has a silver tongue, but I can't keep doing this. I have to focus on my fake relationship, with my real ex, all in the name of fooling my family. They think I've found the love of my life, and I'm determined not to let them find out the truth. That I lied. That my dream guy is really a selfish dirtbag who broke my heart. That the closest thing I have to a soulmate is a stranger on the internet, who's happy to sext me while believing I'm in a committed relationship. It all started with five little words. Based on a true story. . . This item ships from La Vergne, TN. Paperback.
