EARTH MYSTERIES: A BEGINNER'S GUIDE (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The earth we tread harbors many secrets. See our world from space has fostered a deepening of the mystery. Is the earth a living, sentient being, as recent biological theories would suggest? Are there messages left encoded for us in the stone circle and Neolithic mound? What may we learn from observing the earth, and the remains of our prehistoric ancestors who seem to have understood her better than we do? And can we thereby expand our own consciousness to achieve a better perspective on our existence? This book covers a wide range of themes relating to earth mysteries - ley lines, Earth energy is, eventually, astro-archaeology, sacred landscapes and prehistoric structures. Connections with shamanism and paganism are explored, together with dowsing, folklore, myth and tradition. The study of earth mysteries has much to offer, from a pragmatic angle centering upon landscape and archaeology, to a more speculative and evening devotional approach. Whatever your interest in the Earth and has secrets, these pages contain something to fascinate and inspire.
