

Comparative Analysis Of Amo Breed Of Broiler Birds Fed With Commercial And Self Formulated Feed

By Nickson Ochika et al.

GRIN Verlag Feb 2016, 2016. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Scientific Study from the year 2015 in the subject Agrarian Studies, , language: English, abstract: This study is aimed at comparing the effect of commercial and formulated feed on Amo breed of broilers. A comparative analysis of commercial and formulated feed on Amo breed of broiler was carried out. The term 'poultry' used in agriculture generally refers to all domesticated birds kept for eggs or meat production. These include chickens, (domesticated fowl) turkey, ducks, geese, pigeons, guinea fowl and other birds. The most common of all these in Nigeria is the domestic fowl. Sometime the term 'poultry' is considered synonymous with chickens (Igbokwe 2010). The term poultry is a broad classification covering the species of all domesticated birds that are raised primarily for the production of meat and eggs for human consumption. The term applies to chickens, turkeys, ducks, swans, geese, guinea fowl and other birds. However, among all these food producing birds, chickens are probably more than all the other birds and found throughout the world, (Feetham 1990). Poultry production is one of the most important...
