Audible Studios on Brilliance, 2016. CD-Audio. Condition: New. Unabridged. Language: English . Brand New. In the parched twenty-first century Southwest, Carli D Auber has made the most important discovery of the century. She has pioneered a new form of communications: It is now possible to send your consciousness across hundreds of thousands of miles, to be present in another country or in another world, through a remote device. But powerful forces have seized control of her invention. A globe-spanning corporation has taken the credit for its discovery. And on a distant orbital platform, a secret hive of children, trained from birth to use the new technology, are using borrowed android bodies-- proxies --to stage a stunning coup against an interstellar mission. But they need Carli to carry out their plan; they have sent a deadly cyborg to track her down. An exciting and exotically imagined thriller melding a moving human story with the latest speculations in cloning, telepresence, and advanced biotechnology.
