By Hugo Munsterberg. Complete New Edition. The Photoplay - A Psychological Study was published in 1916. The book is an in depth study of the very beginnings of motion pictures. It is one of the first and most important early works of film theory. Munsterberg s work on the emerging art of cinema remains a key document for film scholars, but it has long been out of print. Hugo Munsterberg (June 1, 1863 - December 16, 1916) was a German-American psychologist. He was one of the pioneers in applied psychology, extending his research and theories to Industrial/Organizational (I/O), legal, medical, clinical, educational and business settings. Munsterberg encountered immense turmoil with the outbreak of the First World War. Torn between his loyalty to America and his homeland, he often defended Germany s actions, attracting highly contrasting reactions.

### Reviews

*This book is really gripping and fascinating. Of course, it is actually play, nonetheless an interesting and amazing literature. You will not feel monotony at anytime of the time (that's what catalogs are for about if you request me).*

*The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*
