UNSW Press, Australia, 2008. Paperback. Condition: New. 2nd edition. Language: English . Brand New Book. This book covers the main areas of mathematics used in the first years of a typical engineering, science or applied mathematics degree. This is not a textbook. It is a concise guide to what the important skills in mathematics are: the ones that need to be remembered. This second edition also includes the essential elements of MATLAB and Maple - the two most common computer tools used by students at university.
