Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Geology of the Breckenridge Mountain Quadrangle, California Sir: I have the honor to transmit herewith Bulletin 168, Geology of the Breckenridge Mountain Quadrangle, California, prepared under the direction of Olaf P. Jenkins, Chief of the Division of Mines, Department of Natural Resources. The report is accompanied by a detailed colored geologic map together with cross sections, charts, and photographs of the area which lies in the southern Sierra Nevada about twenty miles east of Bakersfield in Kern County. This map and its report represent one of the results of the Division s program of basic geologic mapping. The senior author, T. W. Dibblee, Jr., has mapped not only this Breckenridge Mountain quadrangle, but has mapped many other areas in the state, including western Santa Barbara County and the Saltdale quadrangle, published by the Division as Bulletins 150 and 160 respectively. The junior author, Charles W. Chesterman, a staff member of the Division, sampled the complex rocks of the area and made a petro-graphic study of them to supplement the field investigation. The Breckenridge Mountain quadrangle...
