Pursuant to a congressional request, GAO provided information on funds spent by various sources for fish and wildlife activities on national forest lands. GAO found that: (1) between October 1987 and June 1990, fish and wildlife activities involving Forest Service staff participation totalled over 202 million; (2) such activities included revegetation of streamside areas, fencing installation, and erosion control projects to maintain or improve fish and wildlife habitat or provide for the recovery of endangered species; (3) of the 202 million, 154.6 million came from congressional appropriations to the national forest system and the remaining 47.8 million came from such outside sources as state and local governments; (4) from fiscal year (FY) 1988 through FY 1989, outside funding for fish and wildlife activities directly involving Service staff increased from about 14.7 million to about 16.7 million and totalled about 16.4 million for the first 9 months of FY 1990; and (5) financial support from outside sources included 32.1 million in cost-sharing arrangements between the Service and outside sources, 15.7 million in work performed by the Service but paid for by outside sources, and 14.7 million for activities in which the Service was not involved.
