(The author) By restoring to government, through the Fed, the sole power to create money, the legislation proposed in this book, when enacted, shall, among other things: - Give the Fed the effective control of the circulation of money within the country; - All but eliminate the destructive business cycles; - Provide a new and substantial source of revenue for the federal and state governments; - Extend government control over the flow of U. S. dollars abroad; - Empower the U. S. government to issue loans to foreign governments without impacting the fiscal budget; - Eliminate the burden of the public debt within less than a decade; - Free the government from the need to borrow from private funds; - Restrain economically useless and dangerous financial activities; - Reverse the U. S. Trade deficit and eliminate the dangerous overhang of U.
